

About NMR's Low Cost Financing

NMR's low cost financing is possible because of the federal New Markets Tax Credit program. Since it received its first allocation of New Markets Tax Credits in 2005, NMR has made \$34,000,000 of investments in downtown or near-downtown Oklahoma City.

In May of 2009 NMR was awarded a second allocation in the amount of \$50,000,000 which it intends to invest in qualifying projects during 2009, 2010, and 2011.
